

FAST-Series1	
Machine Parameters	
Machine Size	FAST-M180, FAST-M250
Machine Dimension	320× 290 × 830mm , 420× 380 × 880mm,
LCD Display	English
Input Voltage	220v
Rate Of Work	80 %
Body Colors	Black Or White (White Optional)
Software Parameter	
Software Brand	CURA14.07
Support Document	STL/OBJ /GCODE/JPEG
Support System	Windows /MacOSX/linux
Connection Type	USB/SD Card
Printing Parameters	
Structural Volume	180*180*310mm, 250*250*300mm
Print Accuracy	0.1 mm Above
Nozzle Diameter	0.4 【Standard 0.4】
Print Speed	20-160mm/s
Type	Environmental protection PLA biological material / plastic raw resin ABS
Consumption Of Diameter	1.75mm
Color	Multi Color Optional

FAST-Series2	
Model	R25
Machine Size	450*420*705*
Forming Size	250*250*297mm
Machine Weight	20kg
Nozzle Diameter	0.4mm
High Precision	0.1-0.4mm (Adjustable)
Printing Materials	PLA, ABS, TPU
Power Range	Support
Printing Software	Compatible With Open Source Software
File Format	.gcode

Automatic leveling system

Touch screen in Chinese / English

Automatic feeding

WIFI 控制
